## Problems and Solutions:

- Problem:** Smaller bucket sizes take many trips to place material.
- Solution:** LHD Buggies .8 yard bucket allow the user to make less trips and place material quicker.

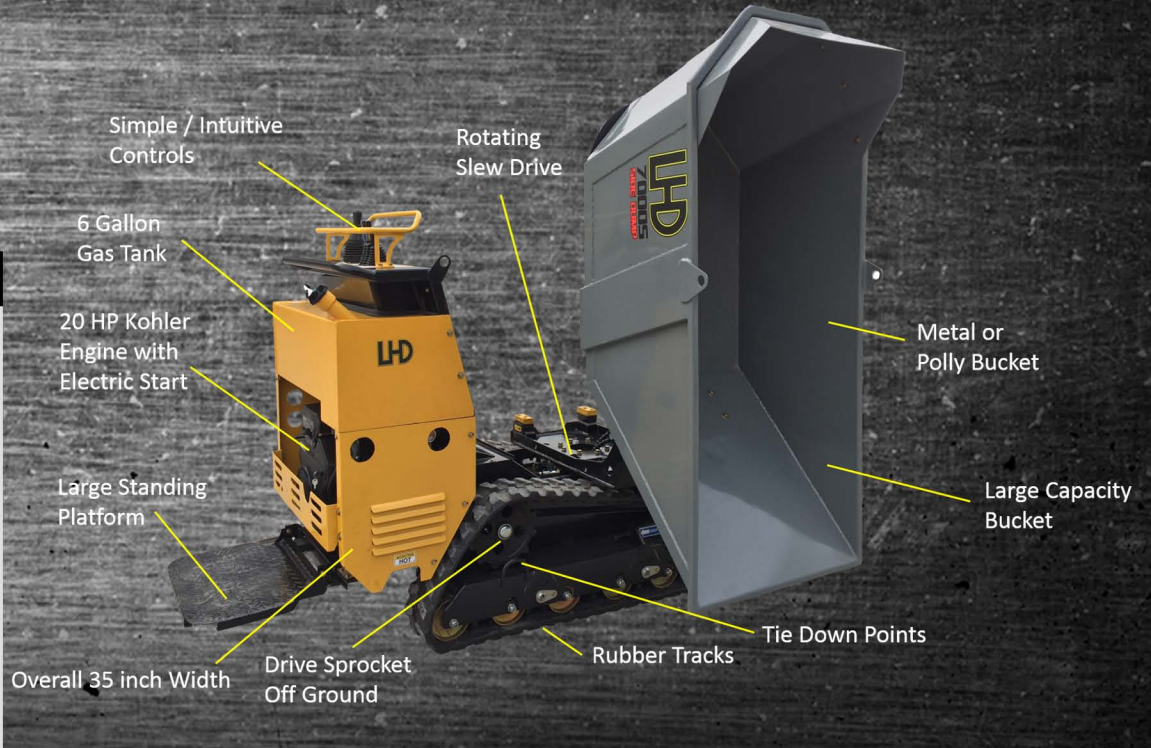

- Problem:** Wheeled machines sink into mud or loose gravel getting the machine stuck easily.
- Solution:** LHD Buggies tough tracks allow the machine to easily move over unstable ground.

# ???

- Problem:** Learning how to control a new machine can be difficult.
- Solution:** LHD Buggies have very simple controls catering to the needs of all levels of users
